## COVER

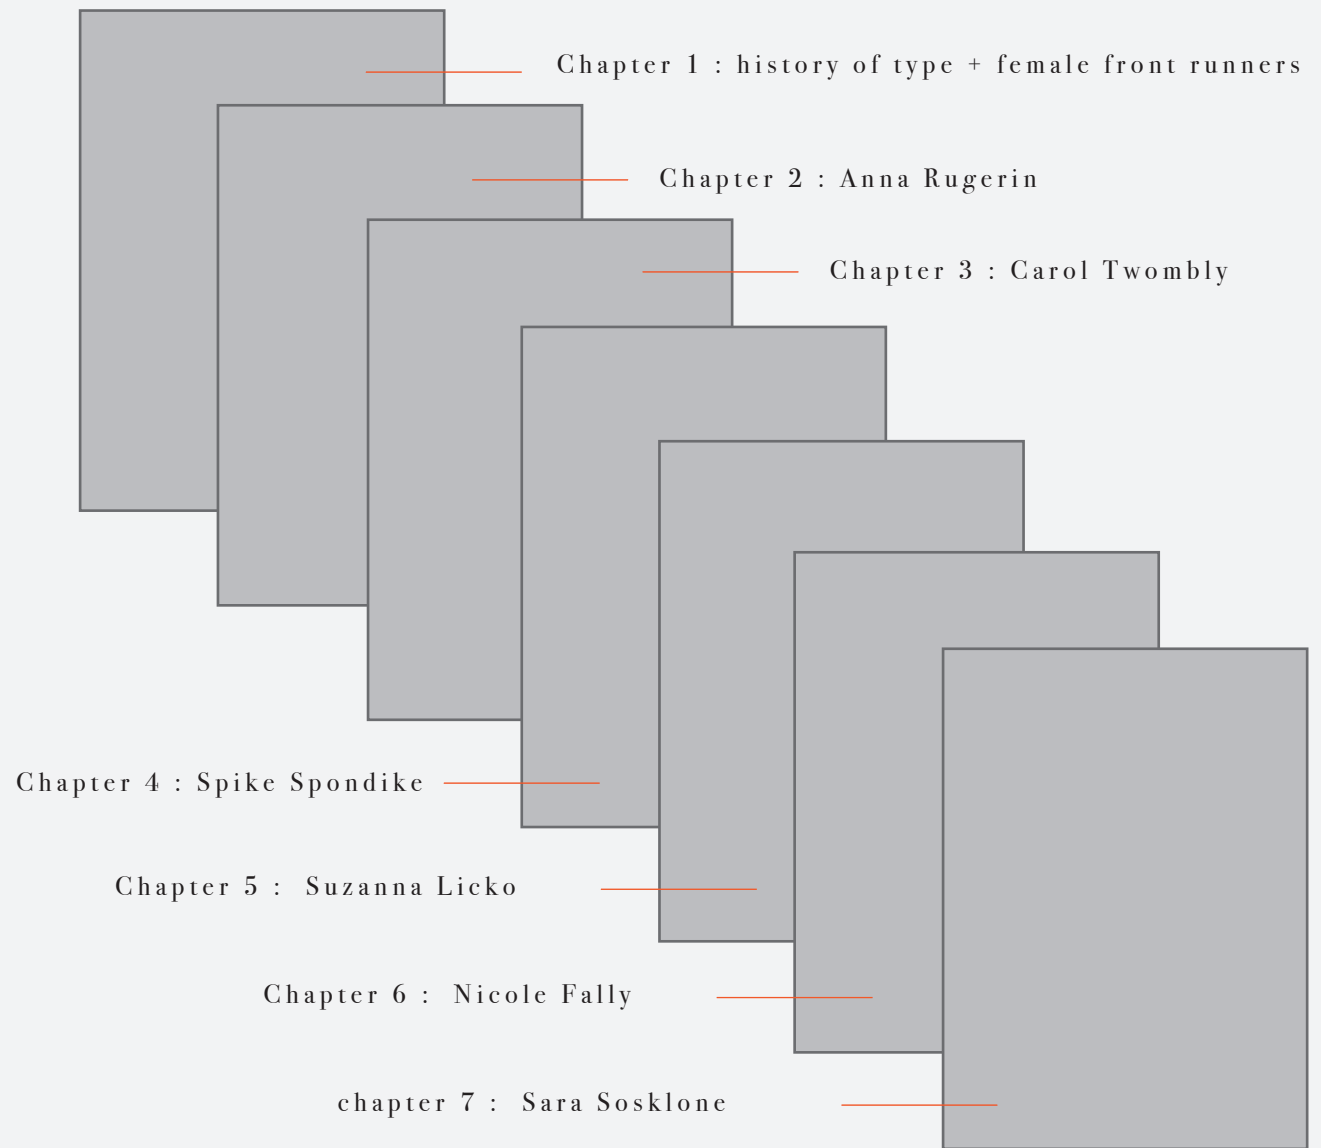

Mostly covered, Wire-O, with the wire frame being emphasized as a aesthetic statment, in conjunction with the paper color / choice.

# CHAPTERS

Beginning with a historical overview, from Mideivel to modern, with how women have progressed from assisting their husbands, to creating some of the most used fonts in Adobe.

# TWOMBLY

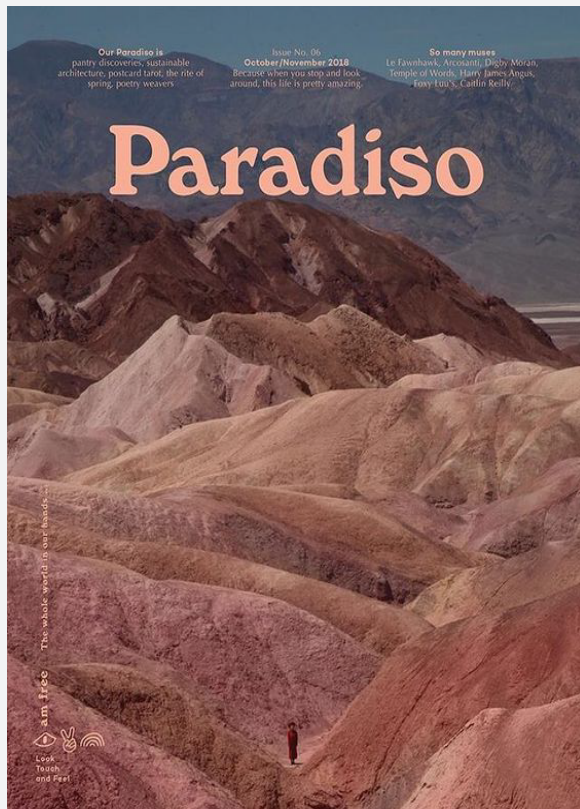

Each biographical image of the font designer will have the same paper, in black and white, with silver foil highlighting an object of specific or suggested importance.

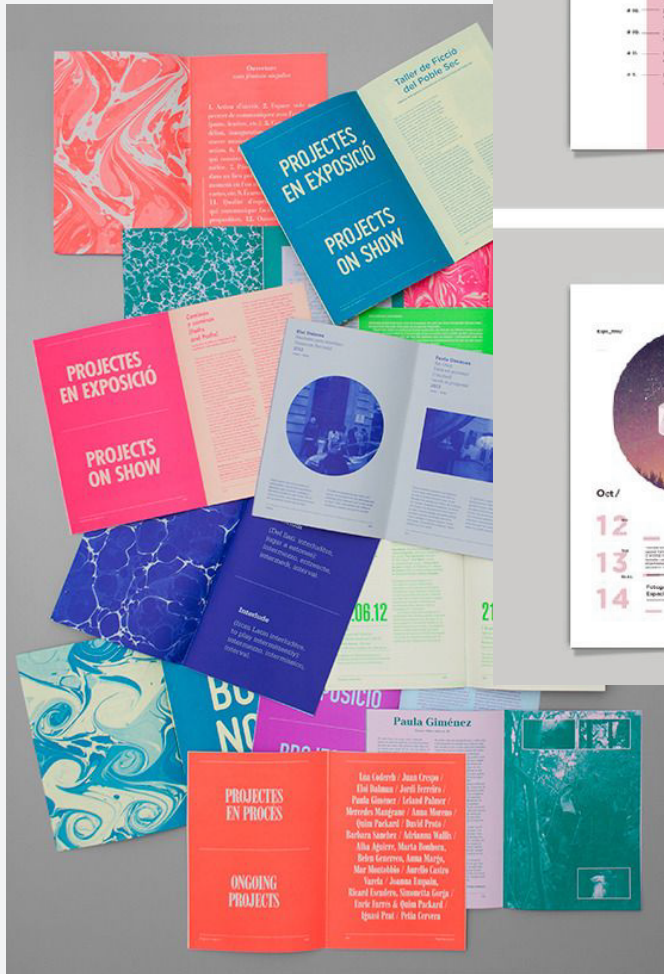

Additional images that lend to the inspiration of the typography created. For example, Lithos was inspired by text inscriptions found on ancient greek architecture, simliar to the Parthenon.

# TWOMBLY

Physical / tactile examples that are additional / small pages. These can be either perforated, or simple used to just touch.

## COLOR + LAYOUT

Additional ideas for color usage, and layouts.

## ACOUTREMONTS

Additional ideas special paper use, inserts, and foil.
